01 | MESSAGE FROM THE VICE PRESIDENT

"Team Work Makes Dreams Work" is what comes to my mind regarding ADRD TAR2017, as we successfully completed the Turnaround, close to four days ahead of schedule. It was team work and dedication all the way.

One of the most notable aspects of this Turnaround was the opportunity provided for the Young Engineers and Professionals to get an in-depth knowledge about the refinery equipments and Turnaround activities related to Operations, Maintenance, Inspection & Process.

This report gives a bird's eye view of the complete Turnaround Process, from Planning to Execution.

The size of the Project can be gauged by the Peak Manpower of 2391 for the main contractor & subcontractors combined and the number of equipment handled, summing up to more than 500. In addition, various Projects, Civil Works, Major equipment overhauling, piping works, valve servicing, etc. were carried out during the TAR period. Considering effort as well, the peak manpower was 3143. Through micro planning, Project integration was done as required to avoid any delay during execution.

I am proud of my team whose tireless and enthusiastic efforts, day in and day out, made this Turnaround a resounding success. Specific mention shall be made on the contribution of young women engineers of ADRD in this regard.
